Membership Levels

Membership levels are used as an incentive to get you involved in all of the events that AMA participates in. The more events you attend, the quicker you will reach the next membership level. All events are optional, so it is your decision whether you want to be ready for the world. **Your accumulated points and your membership level will reset at the beginning of each semester.**

Membership Points

Membership points reward you for participating in an AMA-sponsored event, leading a project, or recruiting new members. To earn your points, you must meet all the conditions of the event, including signing in on the designated sign-in sheet. **If you sign-up for an event but do not show up, the amount of points that you would have earned will be reduced from your total points.** To avoid having your points taken away, notify the Project Manager for the event at least one week in advance if you cannot make it, or find someone to replace you.
